ABOUT US

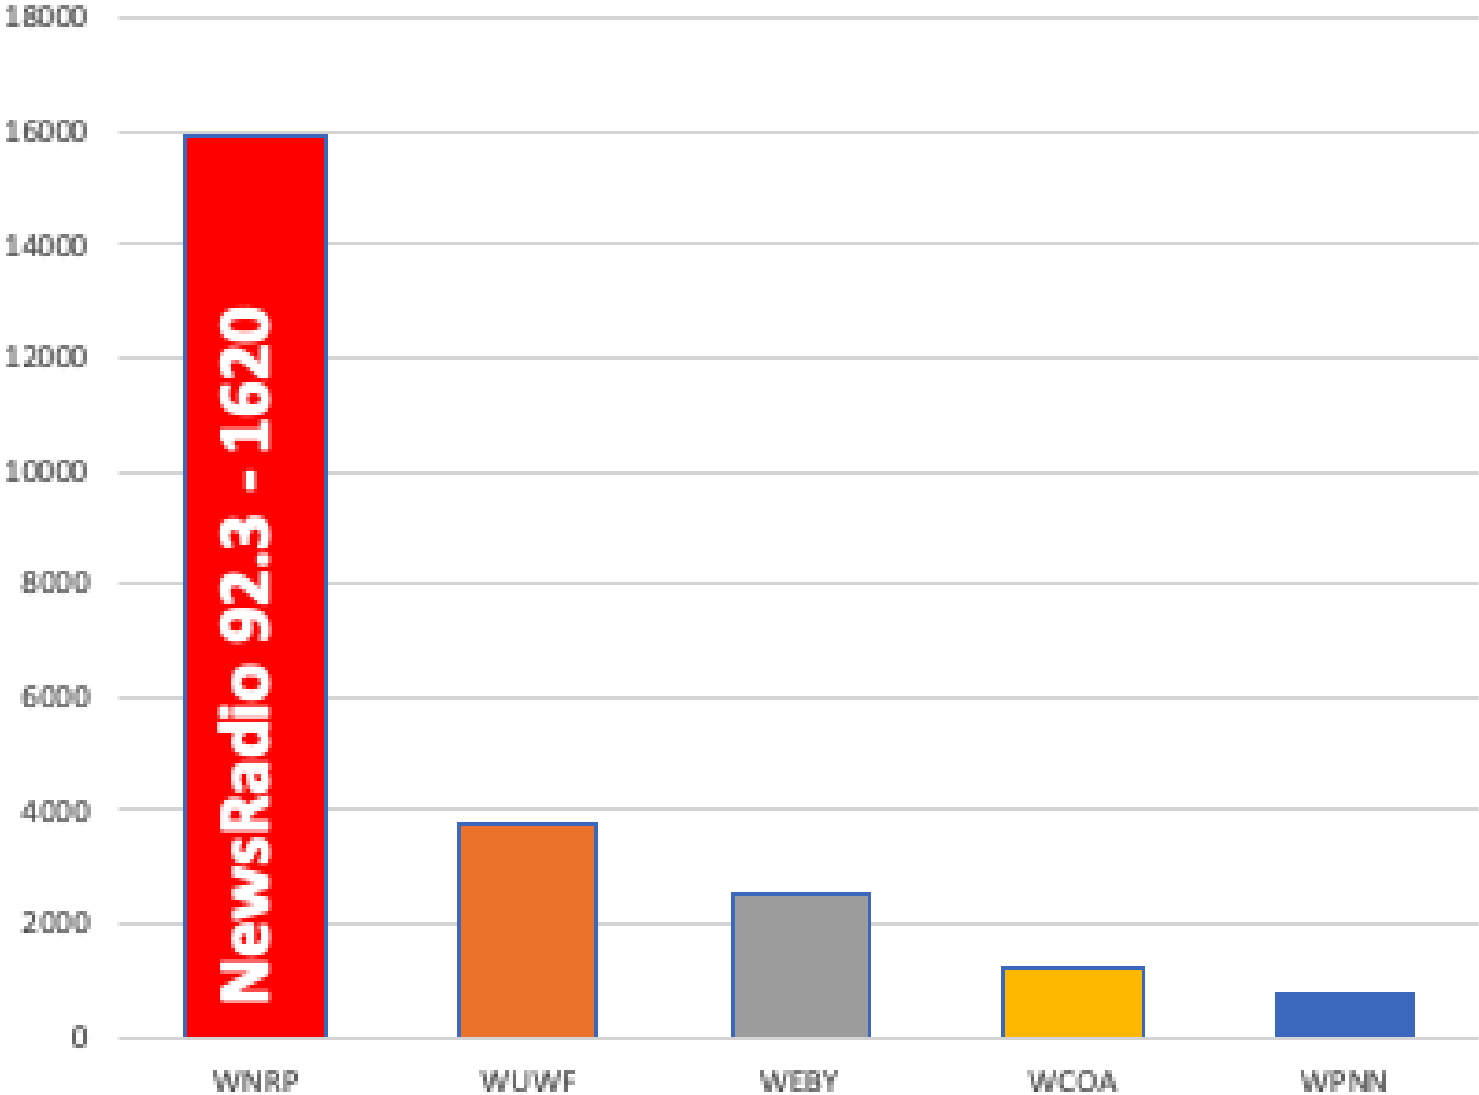

WNRP/NewsRadio92.3-AM1620 is a leader in local news reporting throughout Northwest Florida. We are family owned, managed and fully staffed with news reporters and show hosts actively engaging the community every single day. Like all businesses throughout the community, WNRP experienced difficult and unique circumstances during the outbreak of COVID-19, including the devastation brought to us from Hurricane Sally on September 16th, 2020. Despite the challenges, NewsRadio92.3 remained live on the air, providing the latest on COVID-19, the recovery efforts from Hurricane Sally, all while continuing to remain active throughout our Northwest Florida community. Whether raising relief money for those impacted from the hurricane, hosting local candidate forums during election season, collecting and distributing toys during the holiday season for underprivileged youth, or donating and collecting canned goods to feed families during the holidays, WNRP and their staff have remained committed to super-serving their community throughout the struggles and challenges during 2020.

Since going on air in 2007, NewsRadio 92.3-AM1620 has become one of the most reliable sources for local news and information in Northwest Florida. A big factor in our success is our involvement with the local community and organizations.

In 2020, WNRP provided more than 40 organizations 10,740 unpaid public service announcements. 1,189 were recorded promotional spots, and 8,511 live promotional spots. We have assisted numerous non-profit groups in Pensacola and surrounding areas. Groups included: The Pensacola Humane Society, Manna Food Pantries, Big Brothers and Big Sisters of Northwest Florida, and the American Cancer Society. We have played crucial roles in making sure plenty of promotion took place for annual fundraisers, including during the holiday season for families in need of food, supplies, and gifts for the children.

REPORTING

WEATHER & STORM ALERTS

WNRP prides itself on being Northwest Florida's weather station. When there's a hurricane, WNRP is on top of it. When the hurricane is heading to our area, we are wall-to-wall, geared with generators to help us stay live throughout the storm. That is exactly what happened when Hurricane Sally arrived on September 16th, exactly 16 years on the day since Northwest Florida experienced Hurricane Ivan. The storm left devastating effects on WNRP's listening area, and yet WNRP managed to stay live producing the latest to listeners who lost power in their homes. As Pensacola and the surrounding area continued to recover, NewsRadio moved to live programming seven days a week to provide the latest updates as they arrived.

TRAFFIC ON THE 5's

Every weekday morning and afternoon, NewsRadio 92.3FM-1620AM delivers traffic updates for listeners going to and from work every 10 minutes on the 5's, starting at 6am with Candy Cullerton (6a-9a) and Gracie Wolff (4p-7p) in the afternoons.

“Hi, this is Mike Simpson, owner of Coins Sportscards and Racing Collectibles in Gulf Breeze. We advertise on News Radio 92.3 and AM 1620 on a regular basis. Radio advertising is an integral part of our overall marketing strategy. Based on our experience, radio advertising is an effective way to get your message to the local consumer.”

“Hi, this is Travis Thompson with Climatech of Professional Air. We’re proud to be apart of the Pensacola Expert Panel with Bridget K. We love the interaction and getting to talk with our customers more in depth with the questions and answers that we get to do. We’re seeing results with our business with more qualified leads and we are getting chance to educate our customers as opposed to just selling them a product. We really love what we do here and we love what we see here with Bridget K and the expert panel.”

“Hey, my name is Mark Hinote. I’m with Tire Trust Incorporated and I’m just reaching out and letting you guys know what a please it’s been to work with Taska and the News Radio network.
